

JACOBSEN
ASSOCIATES, INC.
Manufacturers' Representative

Crenlo (www.emcorenclosures.com) offers eight standard enclosure product lines, under the Emscor brand of enclosures, which can be modified to meet specific needs of most applications.

DAU Thermal Solutions (www.dauusa.com) is a global manufacturer of Air Cooled, Liquid Cooled, PC Board & Processor Heat Sinks as well as Custom Specific Heat Sinks; Cold Plate Module and various forms of Heatpipe Cooling, Thermal Simulations & Busbars.

EAO (www.eao.com) is a global manufacturer of high-quality Human Machine Interface products, from switches, keypads and keyboards to complete custom-built control panels.

ENSIGN (www.ensigncorp.com) is a world-class manufacturer of electrical transformers, inductors and adapters for an ever-broadening array of industrial and commercial applications.

Globe Motors (www.globemotors.com) designs and manufactures precision, sub-fractional horsepower motors, motorized devices and motion control assemblies which can be designed to increase durability, reduce weight, decrease size or lower cost based on your design criteria.

Harwin (www.harwin.com) is a manufacturer of high reliability industry standard and application specific interconnect devices, commanding wide-ranging global capabilities to satisfy customer needs.

Hypertronics (www.hypertronics.com) is a global supplier of high reliability, high performance interconnect solutions including electrical/electronic connectors, custom and standard electronic interconnect systems, cable assemblies, mechanical or instrumentation housing, electrical modeling and testing.

499 Easton Road, Horsham, PA 19044

IDI - Interconnect Devices, Inc. (www.idinet.com) is a leading provider of spring contact probe based technologies, including connectors, advanced semiconductor test sockets, ATE interfaces and spring contact probes.

Interpower Corp. (www.interpower.com) is the premier supplier of North American and International power system components such as cords, plugs, sockets, connectors, high power pin and sleeve devices, power entry modules, terminal blocks, fuses and fuse holders & strain reliefs.

Iternna (www.iternacorp.com) has over 50 years of experience in producing batteries, chargers, power managers and energy systems and is a full service vendor providing end-to-end life cycle solutions based on customer's specifications, delivery and cost requirements.

Kanthal Global (www.kanthal.com) is a leading provider of high quality ceramic products for high performance applications, including advanced electronic devices, resistors and capacitors.

OTTO (www.ottoexcellence.com) has been designing and manufacturing precision switches and operator controls for some of the most demanding applications, ranging from fork lift trucks to the space shuttle since 1961.

Transducers USA, Inc. (www.tusainc.com) has a comprehensive line of audio indicators and transducers (in piezo and electro-mechanical varieties), microphones, speakers, and ultrasonic components which can provide solutions for almost any audio applications.

Xymox (www.xymox.com) offers a complete array of custom membrane switches along with the most extensive line of stock membrane switches in the industry. New product offerings include XyCap® capacitive switches and XyWeld® water resistant switches for harsh environments.
